

BRINGING MODERN COMFORT TO YOUR HOME

Applications

Pressure Boosting

Energy savings, unforgettable shower experiences and strong, constant water pressure for your daily needs around the home. The CM-PT series pressure booster system with pneumatic tank gives you a host of extraordinary benefits.

The pneumatic tank smoothes flow from faucets, reduces the number of start/stops, eliminates pulsations and water hammer. One of the advantages of a pneumatic tank is that they can dispense up to half of their capacity of water without the pump switching on, resulting in less wear and tear and greater energy savings.

Water Supply

With superior Danish technology, sterling quality and the fact that only Grundfos pumps are SIRIM certified, you are assured total peace of mind and satisfaction when you choose Grundfos.

Grundfos, bringing modern comfort to your home.

Residential

Model	Discharge Pressure : PSI						Tank Size	Pre-set Operating Pressure (PSI)	Port Size (BSP)	Length x Height x width (mm)
	18	20	29	36	51	55

Features & Benefits

Product certified by SIRIM

Quiet operation

2 years warranty

Energy saving

Quality assurance

Longer life span

Easy installation

将时尚舒适 融入家居生活

用途

增强水压

节省能源、令人回味无穷的淋浴体验，以及强劲稳定的水压供家居日常用途，让具备气压缸的CM-PT增压器系统系列为您带来种种出色的优点。

气压缸使水龙头水流顺畅，减少开停次数，同时也消除水压脉动和水击作用。此特色的优点之一是气压缸可以排出多达一半水量，而无需启动水泵，因此减少磨损，而且更节省能源。

Grundfos采用优越丹麦科技和高质量的住家式压水泵，获得SIRIM认证，因此选择Grundfos绝对令您安心满意。

让Grundfos为您的住家增添现代安逸享受。
